C-22 Processing (126, 127, 35mm, 620 sizes)

Service Time: 12 Lab Days.

Applies to these film processes:

C-22, CN-17, NC-21, E-4, G25, ACN, CT-18, GAF,
Triple Print, Agfachrome, Anscochrome.

Film **Sizes** we process: 126, 127, 35mm, 120, 620.

We process these old color films as **Black & White** negatives, since the color chemicals are no longer available. The negatives are usually very dense and are very low in contrast. We optimize the contrast and brightness of each image, we make one set of 4x6" or 4x4" prints on Kodak Endura Lustre paper, and we save the improved image scans onto a CD.

NOTE: Only about 25% of these pre-1975 films that we receive have any printable images. So there is a strong likelihood that you will pay the \$9.95 minimum charge. In that case we send you an email notice letting you know that there were no images visible on your film after we developed the negatives.

Minimum Charge: \$9.95 if film has no printable images.

Price includes Black & White negatives, prints and scans.

Develop, Scan, & Print C-22 Film

Develop as Black & White Negatives	Each Printable Image
---	-------------------------------------

C-22 Roll Processing 19.95 1.00

Examples of C-22 pricing (develop + scan to CD + print), if every image is printable. You pay \$1.00 less for each image that is not printable (not visible) on your developed roll of negatives:

12 exposures printed & scanned	31.95
20 exposures printed & scanned	39.95
36 exposures printed & scanned	55.95

Mail Order Information:

Securely package your film and ship the package to us using your preferred carrier. We charge a \$4.95 shipping and handling fee for each *package* we send back to you via US Postal Service (to USA addresses) regardless of the total number of films processed or other services requested in your order. Please include your credit or debit card number on the order form when you ship your films to us. For your security, do not provide your credit card information via email.
