Kodachrome "Slide" Processing — 35mm

Service Time: 3 to 4 weeks.

We process Kodachrome film as Black & White **negatives**, since the color slide chemicals are no longer available. The negatives are usually very dense and are low in contrast. We optimize the contrast and brightness of each image, we make a set of 4x6" Black & White prints on Kodak Endura Lustre paper, and we save the improved images onto a CD.

NOTE: Only about 40% of Kodachrome films we receive have any printable images. So there is a strong likelihood that you will pay the \$9.95 minimum charge. In that case we send an email notice letting you know that there were no images visible on your film after we developed the negatives.

Minimum Charge: \$9.95 if film has no printable images.

Price includes Black & White negatives, prints and scans.
