

# Scanning Services - Negatives, Slides, Transparencies

SAVE 20% off the prices below, through March 31st, 2012

## Scan 35mm Negatives and 35mm, 110, 126, 127 Slides to CD

Service Time: 4 Lab Days (7 Lab Days for 250+ scans)

**Negatives** are scanned on an industrial film scanner incorporating "Digital ICE" Dust and Scratch removal.

**Slides** are cleaned with compressed air & scanned at high resolution. While scanning, our qualified technicians optimize the color and exposure of each image. So these image files will produce high quality prints, and can also be imported into your computer for graphic design applications, e-mailing, websites, etc. Scans are saved as high quality JPEG files unless otherwise noted.

**NEGATIVES** must be submitted in strips of at least 3 inches long, or at least 2 images per strip. Add \$.99 each for single 35mm negatives.

Scan a **complete roll** of 35mm cut negatives to CD:

(Each roll may contain no more than 38 negatives.)

<sup>1</sup> Reprint Quality scans (CD included) ..... 12.99 per roll

<sup>2</sup> Enlargement Quality scans (CD included) . 19.99 per roll

## Copy Negatives - B&W or Color

Service Time: 5 Lab Days (plus required printing time)

35mm B&W or color Copy Negative from original prints between 2x3" and 11x16" .....6.95

NOTE: We recommend our professional *Print Scanning* and *Digital Printing* services as a high quality option that is usually less expensive than traditional *Copy Negative* service. Original prints smaller than 2x3" must be scanned—no Copy Negative service available.

### **COPYRIGHT NOTICE:**

It is illegal to copy photographs which are copyrighted by a professional photographer or studio. We do not copy or scan any such photographs without prior written permission of the copyright owner.

## Scan Prints

Using calibrated high-resolution scanners, we optimize each image as we scan, and then apply minor color and exposure corrections as needed. The resulting image files will produce high quality prints, and can also be imported into your computer for graphic design applications, websites, e-mailing, etc. If you request a CD of the scanned photographs, the images are saved as highest quality JPEG files in RGB Color Mode unless otherwise noted. The scan charges are in addition to the cost of any *Reprints* or *Enlargements* (see left column). See page 6 for scanning large quantities of photos.

If you don't specify a preference, we provide "Scan Print-Enlargement Quality" service.

Add \$4.99 Setup & CD Recording charge per CD requested.  
Many image files can be recorded onto one CD.

# “Shoebox” Photo Archive Scanning

SAVE 20% off the prices below, through March 31st, 2012

## Shoebox Photo Archive Scanning

Service Time: 5 - 7 Lab Days

Perhaps you have a shoebox full of precious photographs in your closet. For a very economical price we can scan those photographs to CD so you can preserve those memories, make backup copies or reprints, and distribute them to your relatives.

Two options for *Shoebox Photo Archive* scans:

(1) Standard Resolution (300 ppi) scans are ideal for printing up to two times the size of your original photographs, or for emailing and internet posting.

(2) High Resolution (600 ppi) scans will produce high quality photos four times as large as your original photographs. Images from both kinds of scans are saved as high-quality JPEG files.

**To avoid extra processing fees and to assure quick service, please follow these guidelines for *Shoebox Photo Archive* scanning:**

All photos must be removed from albums and frames and put into a box. Sort the photos by size from smallest to largest. Minimum size: 2½x3½; Max.: 8x10.

Make sure all of the photos are facing forward and oriented so the top of each image is in the same direction. If you want the image files from both horizontal and vertical photos to be right-side-up on your CD, you must sort vertical photos into separate groups from the horizontal photos. If they are mixed together, you may request that we rotate the vertical images to appear face-up on your CD— this “rotating” service adds \$19.95 per group of up to 500 images.

If there is information written on the back of your original photographs that you want scanned, we can scan both sides of those pictures. These will count as two scans. Group the photos for double-sided scans separately and clearly mark the group: “Scan Front & Back.”

Photographs for *Shoebox Photo Archive* scanning can be scanned in a specific sequence for an additional \$34.95 per group of 500. To order this service, number the sequence on the back of each photo (no sticky notes) and **submit the photos in that sequence**, rather than sorting your photos by size. This \$34.95 fee also includes our service of rotating all images to the correct orientation (horizontal or vertical).

Photos that are fragile, folded, ripped, mounted or in albums, sticky or having rough edges or staples cannot be scanned with our *Shoebox Photo Archive* service. To scan such photographs, refer to page 5 for our custom print scanning services (scanning prints up to 8x10" size costs between \$1.99 and 3.99 per scan).

**To scan slides or negatives, see page 4.**

### DVD Slideshow

We can also produce a professional “slide show” of your photographs (and slides) that will play on your TV with a standard DVD player. See page 11 for scanning prices and complete details.

**READ THIS NOTICE:** By submitting photos or images of any kind to our company, you agree that the value of the photos or images does not exceed the cost of scanning the same quantity of photos or images. Thus, you agree that any claim for loss or damage to your photos or images is limited to our cost for scanning them. Our acceptance of your photos or images is without other warranty or liability, and recovery for any incidental or consequential damages is excluded. 90-day unclaimed orders will be considered abandoned.
